July, 2009

Dear Senator,

We are sending you this x-ray to give you an inside view of the healthcare system.

As physicians, we see our patients struggling everyday to get the care they need. We see our colleagues struggling to provide the best care to patients.

The diagnosis is clear: our healthcare system is broken.

Please help us and our patients by passing health reform this year!

Sincerely,

Doctors for America

www.drsforamerica.org

Doctors for America is a grassroots group of over 13,000 physicians from all 50 states who are working to support health reform. Doctors for America works to engage physicians through grassroots organizing and to convey their ideas and experiences to Congress and the public to help pass strong health reform in 2009.
